DIFFERENTIAL GLOBAL POSITIONING SYSTEM (DGPS):

1. On 29 January 1996, the Coast Guard declared the CG DGPS service operational for navigation and positioning. During this Initial Operational Capability (IOC) phase, users continue to be cautioned to use all available navigational tools to ensure proper evaluation of position solutions. Problems identified during the pre-operational phase will be resolved. Full Operational Capability (FOC) of the DGPS service is anticipated when all operational and support performance requirements are met.
2. Broadcast stations at Kokole Point, Kauai and Upolu Point, Hawaii provide DGPS signals to the Hawaiian Islands. Kokole Point, Kauai broadcasts on 300 kHz at 200 bits per second and Upolu Point, Hawaii broadcasts on 286 KHZ at 100 bits per second.

OMEGA RADIONAVIGATION SYSTEM TERMINATION:

The Coast Guard intends to terminate its involvement in the worldwide Omega Radionavigation System on 30 September 1997. This will include closure of the two stations located in the U.S. (Lamoure, North Dakota and Haiku, Hawaii) and termination of the existing bilateral agreements with the six partner nations (Argentina, Australia, France, Japan, Liberia, and Norway). The Omega navigation system primarily serves aviation and weather users. The Department of Transportation recently completed its review of Omega navigation requirements and notified the U.S. Coast Guard that most users will complete their conversion to Global Positioning System technology by September 1997.

HAWAIIAN ISLANDS - ISLAND OF OAHU - PEARL HARBOR - Construction:

The Channel opening at the Ford Island Bridge is permanently closed to navigation. A NO-WAKE zone will be enforced in the vicinity of the bridge pontoon section. The derrick barges, SCANDIA and VASA, and work boats, KIMBERLY and ROUGHNECK, along with 45' x 180' supply barges, will be working between the eastern tip of Ford Island and the Pearl Harbor shoreline north of the ferry boat landing. Concrete piles to support the bridge will be driven in the channel, thereby restricting its width to 650 feet. The work boats and barges will also be making trips to Whiskey 22 pier and the Victor piers for material loading. Hours of operation will be 0700 to 1730 HST, Monday through Friday. The call signs are as follows: SCANDIA - WAO 5175, VASA - WSB 3570 and KIMBERLY - WAF 4546. VHF-Channel 69 will be monitored. The aquatic portion of the project is scheduled to be completed by December 1997. In the interest of safety all mariners are requested to use caution while transiting the area. For further information contact Bruce Cody at (808) 422-2009 or (808) 831-2436.

HAWAIIAN ISLANDS - ISLAND OF OAHU - HONOLULU HARBOR - Pier 40:

Demolition and construction of Pier 40 is scheduled from 03 March 1997 to 01 March 1998, with hours of operation from 0700 to 1730 HST, Monday through Saturday. During demolition and construction of Pier 40, steel beams and forms will be placed in the water. Vessel should stay clear of the construction area and reduce speed as to produce no wake. Forms will be marked with flashing safety barriers. Mariners are requested to transit the area with caution. For more information concerning the project contact Ms. Melissa Suarez at (808) 832-7579.

Scheduling authority is FACSFAC Pearl Harbor code named "HULA DANCER". Transits through these areas may be authorized, on a case-by-case basis, by "HULA DANCER" on 277.8/380.6 MHz or telephone (808) 472-7333. No exclusive events involving ordnance will be authorized in areas "KAPU" and "WELA" from 1730 to 0730 HST unless requests are received NLT three working days prior to event date.
